**Subject:** Re: Any Update on Dicamba Resistance in Waterhemp or Other Weeds

Bill,

Hope things are going well. We are not aware of any dicamba resistant weeds in Iowa. However, Prashant is running a resistance screen of weeds across the state (primarily waterhemp) to multiple herbicide groups. He did find levels of survival to dicamba that are of concern in several of the waterhemp populations that were screened, and is evaluating them further.

**Subject:** Any Update on Dicamba Resistance in Waterhemp or Other Weeds

Hello Gentlemen

The Office of Pesticide Programs is working on the registration of over-the-top dicamba for cotton and soybeans. We have found some new reports of dicamba resistance in Palmer amaranth but very little discussion of waterhemp. In 2019 there was a short description of dicamba-resistant waterhemp in the Progressive Farmer (below). Is there anything you can share about dicamba-resistant waterhemp? Are there any other weed species that you are aware of where dicamba is showing signs of potential resistance?

Thank you. Bill Chism
